WORRY-FREE SERVICES ADVANCED

Cloud-based, enterprise-grade protection for small business devices and email

Growing numbers of smaller businesses are being victimized by cyber criminals' data theft schemes that use spam, malware, phishing, and advanced targeted attacks - custom-built to bypass traditional antivirus.

You probably know that it's an absolute necessity to have a strong security solution to protect your staff, computers, and mobile devices from cyber threats. But, you may not know what kind of protection is best for your small business, especially given that you have a limited budget and limited or no IT security expertise on staff.

Trend Micro™ Worry-Free Services Advanced is cloud-based security designed specifically for small businesses with award-winning device and email protection. To save you time and resources, it is hosted and maintained by Trend Micro and combines **Trend Micro™ Worry-Free Services** to protect your devices, **Trend Micro™ Hosted Email Security** to protect your on-premises email, and **Trend Micro™ Cloud App Security** to protect your Microsoft® Office 365™ email.

Worry-Free Services Advanced is an affordable and easy-to-use solution that gives you industry-leading, enterprise-grade protection. It allows you to:

- Manage the security of all your devices (Windows, Mac, mobile) from one web console
- Stop email threats in the cloud before they reach your network
- Protect against spear phishing and advanced targeted attacks
- Focus on your business because updates are automatic and keep your security always-up-to-date
- Enforce security policy to employees anywhere—even at branch offices and in their homes
- Enjoy affordable pricing with annual subscription billing

For five years in a row, Trend Micro has been the worldwide number one content security provider for small businesses.

– **Canalys, Small Business Content Security Market Trends, 2016**

Trend Micro's messaging and mail server security have ranked first in Opus One's seven consecutive antispam tests, outperforming leading security vendors.

– **Opus One, 2012-2015**
